GGL RESOURCES CORP. ANNOUNCES CLOSING OF FINAL TRANCHE OF PRIVATE PLACEMENT

Vancouver, BC – October 9, 2025 – GGL Resources Corp. (TSX-V: GGL) (“GGL” or the “Company”) announces that it has closed the second and final tranche of its previously-announced non-brokered private placement for total proceeds of \$75,000 (see GGL’s news releases dated June 24, 2025, July 24, 2025, August 11, 2025 and September 8, 2025). The final tranche consisted of the sale of 1,500,000 units at a price of \$0.05 each, each unit consisting of one common share and one common share purchase warrant, with each warrant entitling the holder to purchase one additional common share at a price of \$0.10 until October 9, 2027.

All of the shares issued pursuant to the final tranche, including any shares that may be issued pursuant to the exercise of the warrants, are subject to a hold period in Canada until February 10, 2026. The proceeds from the final tranche will be used to fund exploration activities on GGL’s United States and Canadian based exploration projects and for general working purposes.

An insider of GGL purchased a total of 200,000 units in the final tranche. The participation of this insider in the final tranche constituted a related party transaction within the meaning of TSX-V Policy 5.9 and Multilateral Instrument 61-101 – “Protection of Minority Security Holders in Special Transactions” (“MI 61-101”). GGL has relied on exemptions from the formal valuation and minority shareholder approval requirements provided under sections 5.5(a) and 5.7(a) of MI 61-101 on the basis that the fair market value (as determined under MI 61-101) of insider participation in the final tranche did not exceed 25% of GGL’s market capitalization.

About GGL Resources Corp.

GGL is a seasoned, Canadian-based junior exploration company, focused on the exploration and advancement of under-evaluated mineral assets in politically stable, mining friendly jurisdictions. The Company has optioned and wholly owned claims in the Gold Point district of the prolific Walker Lane Trend, Nevada. The Gold Point claims cover several gold-silver veins, five of which host past producing high-grade mines, as well as an exciting new porphyry target which is currently under option to Teck. The Company also owns the McConnell Project, which hosts mesothermal gold veins and an under explored porphyry copper-gold prospect in the Kemess District of north-central British Columbia. GGL also holds diamond royalties on mineral leases adjacent to the Gahcho Kué diamond mine and southwest of the Ekati diamond mine in the Northwest Territories.

ON BEHALF OF THE BOARD

“Matthew Turner”

Interim Chief Executive Officer and Director
